Dear Sir/Madam,

I am currently studying BIM(Bachelor In Information Management) at Asian School of Management and Technology, this is now my Last year of study(8th semester), I have been searching for a challenging summer internship position for this upcoming (May) in the hopes of expanding my on the job experiences and improving on my skill set for further refinement.

Last year I had done Training at IT Training Nepal for 3 months where I honed my knowledge at development of webapplication using Spring MVC, Spring Security, Springframework as well as basic knowledge of HTML, CSS, Bootstrap4 and I have done summer project on futsal booking system.

I am a team player, enjoying meeting new people and forming new, close working relationships with those working with me. I am extremely organized and enjoy reaching the completion stages & finishing tasks at hand.

I believe that my high work ethics and social abilities are what are needed in order to fulfill the employer needs ensuring an enjoyable work environment and maintaining excellent company-client relations.

I thank you for your time and consideration today and very much look forward to hearing from you.

Please find attached my full resume/CV for further information.

Sincerely

Kenish KC
